PRANSH AGARWAL

MBA, Business Analytics | Indian Institute of Management, Sambalpur | Batch 2026–28
placementoffice@iimsambalpur.ac.in | Indian Institute of Management, Sambalpur, Odisha

Target Role: AI Consultant (AI-Native New Business Development)

PROFESSIONAL SUMMARY

First-semester MBA in Business Analytics at IIM Sambalpur with a B.E. in Computer Science (9.34 CGPA) and 20 months of end-to-end operations ownership. Directed logistics, inventory, and quality across 500+ SKUs; cut leadership reporting time 40% with analytics dashboards; and launched a live 0-to-1 web product. Combine CS/ML literacy with operations execution to identify AI-native opportunities, define an MVP, run customer discovery, and own launch and revenue outcomes.

EDUCATION

MBA, Business Analytics | Indian Institute of Management, Sambalpur | 2026 – 2028
B.E., Computer Science | Chitkara University, Punjab | 2024 | 93.40% (9.34 CGPA)
Class XII (CBSE) | Guru Tegh Bahadur Public School, Meerut | 2020 | 74.83%
Class X (CBSE) | Dewan Public School, Meerut | 2018 | 73.00%

PROFESSIONAL EXPERIENCE

Vinay Enterprises — Operations Manager | June 2024 – March 2026

- Owned end-to-end daily operations (logistics, inventory, quality) across 500+ SKUs; held stock discrepancy below 2% in every quarterly audit by standardizing stock-movement workflows into explicit, auditable processes.
- Built automated Excel analytics dashboards (Pivot Tables, VLOOKUP, Macros) for executive leadership, reducing manual reporting time by 40% and enabling data-driven weekly performance tracking.
- Led a cross-functional team of 8+; set weekly Key Performance Indicators (KPIs) that raised on-time task completion by 25% and built accountability around process improvement.
- Conceived, engineered, and launched the company's live responsive web application — a 0-to-1 product that improved mobile access and organic customer reach.

Hoping Minds — Full Stack Developer Intern | December 2023 – June 2024

- Shipped production web applications using React.js, Node.js, Express.js, and MongoDB, delivering 3+ client-facing features per sprint with stakeholders.
- Designed REST APIs with JWT authentication and Redux state management, improving API response times by 30%; sustained a >95% bug-free release record with zero critical downtime.

PROJECTS

Internz — Business Intelligence and Analytics Platform | 2024

- Built a Superset-style analytics web platform (MERN) so non-technical users could create real-time business dashboards; improved load time 25% with optimized MongoDB queries, JWT, and role-based access.

Blog Application — Full-Stack Content Management System | 2024

- Launched a CMS with authentication, role-based access, and CRUD publishing; cut API latency 20% under peak-load testing.

SKILLS

Business and Go-to-Market: Customer Discovery, Market Research, Go-to-Market (GTM), Unit Economics, KPI Design, Process Improvement, Operations and Logistics, Stakeholder Communication, Cross-functional Leadership

Analytics and AI: Business Analytics, Machine Learning (Regression, Classification, Clustering), Python, Excel Dashboards, Data Visualization, AI Literacy (LLMs, AI Agents)

Product and Engineering: MVP Definition and Launch, React.js, Node.js, Express.js, MongoDB, REST APIs, JWT, Redux, Full-Stack Web Development

CERTIFICATIONS

- IBM Full Stack Software Developer Professional Certificate (React, Node.js, DevOps, Cloud Native) — 2024
- University of Washington Machine Learning Specialization (Regression, Classification, Clustering, Information Retrieval; Python) — 2023

LEADERSHIP AND ACHIEVEMENTS

- Skilled Sapiens x IIM Sambalpur (2026): Corporate mentor-driven leadership program — strategic leadership and real-world business case solving.
- National-level B-school case competitions (2026): Market-trend and operations analysis; executive pitch presentations for corporate problem statements.
- Top-percentile B.E. Computer Science graduate (9.34 CGPA); National Mathematics and Science Olympiad merit certificates.

INTERESTS

Competitive chess, Sudoku, supply chain analytics, web product building.
